K-Row 23

IN-FURROW | FOLIAR

PRODUCT DESCRIPTION

K-Row 23® (0-0-23-8S) is an efficient source of soluble potassium and sulfur. It provides your seedlings with essential nutrients during germination for a healthier start and puts you in a position to maximize your soybean yield.

K-Row 23 was the most seed-safe, potassium-based fertilizer in germination trials conducted at South Dakota State University. It is an easy to handle and seed-safe product when applied at recommended rates.
