Solutions**

8-29-2

IN-FURROW | FOLIAR

PRODUCT DESCRIPTION

8-29-2 is a high orthophosphate fertilizer. The 50/50 ortho/poly phosphate blend can be used in-furrow, but is ideally mixed with UAN such as 28% or 32%. It is well-suited for mixing with UAN nitrogen products because it has a higher ratio of poly phosphate.

Product Name	Analysis	Application Rate	Product Description	Use Description	Lbs/Gal	Organic
