Solutions**

SG Engage

SOIL

PRODUCT DESCRIPTION

SG Engage is a uniquely formulated high-grade non-ionic soil penetrant with added enzymes and a biostimulant. It helps reduce soil crusting, loosens hard clay, and improves aeration.

SG Engage optimizes the air and water content of the soil by reducing the surface tension of the water. This allows water and oxygen to better reach plant roots and evenly infiltrate into the soil profile.

Product Name	Analysis	Application Rate	Product Description	Use Description	Lbs/Gal	Organic
