

**Ideal Soil
Solutions**

SG InFuze

IN-FURROW | ON-SEED

PRODUCT DESCRIPTION

SG InFuze combines multiple technologies into one unique blend to boost performance to the next level. It provides a well-rounded micro-nutrient blend, enzymes, organic acids, amino acids, phsophite, sugars, beneficial aerobic and anaerobic microbes, and mycorrhizae which are essential in the soil system.

SG InFuze is easy to use at ½ gallon per acre on corn, soybeans, wheat, sunflowers, cotton, peanuts, potatoes, and other crops. It eliminates the need to mix multiple products in the field and minimizes the refill and prep time when the planting window opens.

Product Name	Analysis	Application Rate	Product Description	Use Description	Lbs/Gal	Organic
SG InFuze	2-0-0, 1.5% Zn, 0.3% Mn,, 0.2% Cu, 0.04% B, 0.001% Mo	IF: 2 qt	Micronutrients, Microbial Inoculant & Activator, Seedling Protectants	Apply with on-seed starter to enhance nutrient uptake, rooting, and crop vigor	9.33	NO
